to me, Cynthia

Dear Friends,

First of all I hope you are safe and well in these very uncertain times. Sorry for the delay in responding. Life has been turbulent recently with trying to get out of New York and into Spain again.

What a wonderful idea, that of the doodle competition for the UN and Me and your collaboration with the UN Information Centre for India and Bhutan. A special congratulations to Ritika for her inspiration, talent, work on the project and her success. It is so encouraging to see your support and leadership as educators. Very best wishes for your safety and wellbeing during these times,
Cecilia
